

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

 10 minutes to prepare

 1 hour to collaborate

 2-8 people recommended

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

 5 minutes

PROBLEM

This application we created can be used by car insurers to evaluate customer claims more quickly than other traditional methods that involve manual tasks

Key rules of brainstorming

To run an smooth and productive session

Stay in topic.

Encourage wild ideas.

Defer judgment.

Listen to others.

Go for volume.

If possible, be visual.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

Mohamed Usman J B A

Providing efficient and convenient customer support	Working in a very fast and intelligence manner	Maintaining a user friendly interface
Providing quick responses for the queries	Providing instant solution for the users	Facilitating constant guidance to customer on insurance
Available 24/7	Maintaining confidential conversation with customer	Individual pattern recognition

Rick Zion C

Make the interface convenient for customers	Easy access for rural people	Categorize the damage with precision
Enable insurance companies to provide AI based help	Recognize damage and estimates	Improve validation by training the model on several testcases

Predicting output based on sample dataset	Site should be user friendly for customer	Providing instant cost details about damages

Saravanan V

User friendly web application	Analyze component damage security	Decrease operational costs
Guiding the customer in all possible ways	Decrease the level of fraud	Fast time to market
Compatibility and scalability	Increase customer happiness	Providing reliable service

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.
